Applicant's arguments filed 7-28-03 have been fully considered but they are not persuasive.

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 36-39 and 81-82 are rejected under 35 U.S.C. 102(b) as being anticipated by Guthrie et al. and JP-62-263,028 (each being taken individually).

The rejections are maintained for the reasons set forth in the previous Office action.

Rejection is maintained for the article claims because applicants' remarks and supporting disclosure offer no distinguishing features in a patentable sense to distinguish over the articles defined by the cited art.

The limitation of claim 81 does not distinguish over the prior art in that segments of the article of the prior art meet the claim limitation "generally parallel".

The statement of intended use in claim 82 does not limit the invention in a patentable sense.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within

Art Unit: 1711

TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
